ABOUT SINON

Company Profile

SINON develops and supplies smart door lock solutions for global distributors, project contractors, online retailers and private-label brands.

The portfolio covers apartment locks, exterior waterproof locks, video and face-recognition locks, glass-door locks, aluminum-frame locks, smart cylinders, gateways and mortise systems.

Configuration options include Tuya WiFi, Tuya Bluetooth, TTLock, Zigbee, Matter and Apple HomeKit compatible versions. Access methods can combine fingerprint, password, card, app, mechanical key, camera/cat-eye, face recognition and palm-vein technology.

OEM / ODM

Logo, finish, packaging and configuration support by model.

Project Fit

Door-thickness and mortise options for wood, metal, aluminum and glass doors.

Export Sales

Fast English communication through dedicated contact support.

MARKET-READY ADVANTAGES

Built Around What Global Buyers Ask For

App Ecosystems

Tuya, TTTLock, Zigbee, Matter and Apple HomeKit compatible configurations help buyers localize their preferred smart-home platform.

Outdoor Reliability

IP65/IPX6 waterproof choices and metal-door rim locks support exterior gates, villas and security-door applications.

Premium Access

Camera, cat-eye, face recognition and palm-vein options upgrade the product story beyond basic fingerprint access.

Fitment Breadth

Mortise options including 5050, 3585, 4585, 5572, 6068 and 6085 simplify matching different door markets.

Branding Flexibility

Silkscreen, laser marking, finish selection and packaging support help distributors create their own sellable line.

Branding

Silkscreen logo, laser marking, private label packaging and finish selection by model.

Configuration

Tuya, TTLock, Matter, Zigbee, HomeKit, battery and camera/face combinations.

Fitment

Confirm door type, door thickness, backset, mortise and opening direction before quotation.

SINON

Request a Quotation

Send the target door type, quantity, preferred app platform, mortise size, finish, logo requirement and destination market. We will recommend the most suitable model and configuration.

1

Choose application: apartment, exterior gate, aluminum frame, glass door or retrofit cylinder.

2

Confirm access features: fingerprint, password, card, app, key, camera, face or palm vein.

3

Select platform: Tuya, TLock, Zigbee, Matter or Apple HomeKit compatible options.

4

Share branding needs: logo method, color finish, package and target certification.
